ANNUAL REPORT ON THE WORK OF ALL COURTS IN THE REPUBLIC OF SERBIA FOR 2024

I. INTRODUCTION

I.1. INTRODUCTORY REMARKS

The Annual Report on the work of the courts of the Republic of Serbia for 2024 was prepared on the basis of individual statistical reports of all courts on their work, which are collected and processed by the Supreme Court, as the highest court in the Republic of Serbia.

The Annual Report on the work of the courts of the Republic of Serbia for 2024 represents a shortened analysis of the work of all the courts of the Republic of Serbia in the previous year, observed through statistical data – indicators of efficiency, performance and quality.

In addition to the statistical data on the work of the courts in 2024, data from the annual reports on the work of the courts for the past *five* years (period *from 2020 to 2024*), except for backlog cases, are also presented, with the aim of monitoring progress in reducing the number of pending, especially backlog cases, the workload of courts, the quality and length of court proceedings, as indicators of the court efficiency.

**The data used in the Annual Report were collected from the High Court Council and the company "Eviden", which processes statistical data, and the Supreme Court is not responsible for the accuracy of data.*

I.2. WORK OF THE COURTS IN 2024 WAS MARKED BY THE FOLLOWING

1. In 2024, the courts acted with a reduced number of judges, since the procedure for selecting judges slowed down the entry into office of newly elected judges.
2. During the aforementioned period, there were as many as **466** vacant judicial positions, while a significant number of the most experienced judges – **166** – ceased to hold judicial office.
3. Competent courts are still burdened with a large number of repetitive cases in civil matters (cases with a basis of dispute, where the purpose of collecting the costs of processing bank loans, following lawsuits against banks).
4. In the Case Law Database of Appellate and national level courts, as of December 31, 2024, there were 472,475 integral decisions, 66,197 anonymized decisions, 193 legal opinions, 80 case law bulletins and 58 decisions wordings.

I.3. CONSTITUTIONAL AND LEGAL FRAMEWORK

New judicial laws aligned with constitutional amendments, including the Law on Judges, the Law on the Organization of Courts and the Law on the High Court Council, were adopted in 2023 and published in the “Official Gazette of the Republic of Serbia”, No. 10/2023 on February 9, 2023.

According to the current provisions of the Constitution and laws, the judicial power belongs to the courts and is independent of the legislative and executive powers. Courts protect the legal order of the Republic of Serbia, the freedoms and rights of citizens, the legally established rights and interests of legal subjects, ensure constitutionality and legality, uniform application of rights and equal protection of all before the law.

A court decision can be reviewed only by a competent court in a procedure prescribed by law, as well as by the Constitutional Court in a procedure based on a constitutional appeal. Everyone shall respect the final and enforceable court decision.

Judicial power is unique on the territory of the Republic of Serbia and belongs to the courts of general and special jurisdiction.

Courts of general jurisdiction are basic courts, higher courts, appellate courts and the Supreme Court.

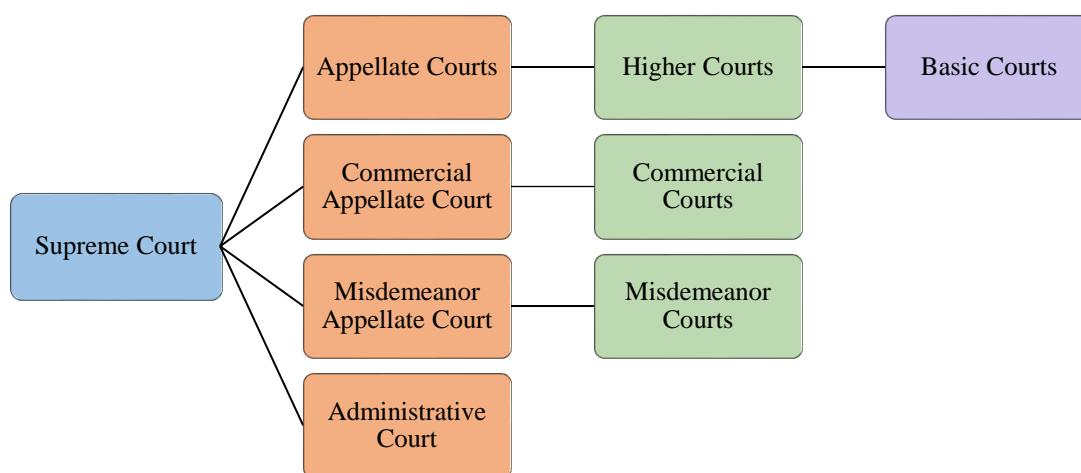

Courts of special jurisdiction are the Administrative Court, Commercial Appellate Court, Misdemeanor Appellate Court, commercial courts and misdemeanor courts.

The Supreme Court is the highest court in the Republic of Serbia and it is directly superior to the Commercial Appellate Court, Misdemeanor Appellate Court, the Administrative Court and the Appellate Court.

In addition to the Supreme Court, the Commercial Appellate Court, the Misdemeanor Appellate Court and the Administrative Court are republic-level courts.

As of January 1, 2014, in the Republic of Serbia there is the total of 159 courts, out of which 66 courts act as basic courts, 25 as higher, 16 commercial, 44 misdemeanor and the Administrative Court. Higher courts act as second instance courts, as well as four appellate courts, Commercial Appellate Court and Misdemeanor Appellate Court.

I.4.1. COURTS OF GENERAL JURISDICTION

Courts of general jurisdiction are basic courts, higher courts, appellate courts and the Supreme Court.

The Supreme Court is directly superior to the appellate courts, the appellate courts are directly superior to higher and basic courts, and the higher courts are directly superior to the basic courts.

In the Republic of Serbia, 4 appellate courts were established with seats in: Belgrade, Kragujevac, Niš and Novi Sad.

The number of judicial assistants in the same period was: **2020-1,704, 2021-1,661, 2022-1,675, 2023-1 and 2024-1,758**, which is still insufficient number, compared to the influx of cases and the number of judges.

In addition, it should be noted that there are only 111 judicial assistant trainees engaged in the judicial system, while no employment relationship has been established with 324 volunteer trainees.

The slower pace of filling vacant positions according to valid systematizations, continued from 2020 with valid budget laws for the current year and the Law on Civil Servants, which further reduced the efficiency of judicial function, especially with regard to drafting court decisions.

I.6. COURT FINANCING

I.6.1. COURT BUDGET

The Law on the organization of courts stipulates that funds for the work of courts are provided in the Budget of the Republic of Serbia. Funds for the operation of the courts should be of a volume and inflow that maintain the independence of the judiciary and enable the orderly operation of the courts.

The Law on the Budget of the Republic of Serbia for 2024 ("Official Gazette of the Republic of Serbia", No. 92/2023 and 79/2024), within Section 6 - Courts, allocated funds for the work of the courts in the total amount of RSD **40,355,088,000.00**, which is **1.689 %** of the total budget of the Republic of Serbia, which amounted to RSD **2,389,278,467,000.00**.

I.6.2. REVENUES FROM COLLECTED COURT FEES

In **2024**, the total revenues from collected court fees were RSD **6,729,622,109.18**.

The Law on Court Fees prescribes the manner of using part of the funds from the collected court fees. The collected fees are revenue from the Budget of the Republic of Serbia, however, 40% of the collected fees is being distributed for current expenditures of the courts,

20% for improving the financial position of court and prosecutorial staff, and 40% of the total funds is allocated as revenues of the budget of the Republic of Serbia.

I.6.3. COURT ARREARS

Allocated resources that were insufficient for the work of the courts negatively affect the efficiency of the work of the courts. Court accounts are often blocked, arrears are created (assumed, but overdue payments), which together leads to a halt in the work of the courts, since they are unable to settle assumed obligations, especially those related to the costs of court proceedings, delivery of court documents, utility and energy services, procurement of office supplies and fuel, etc.

On December 31, 2024, court arrears amounted to a total of RSD **2,451,450,208.11**, while in the forced collected system, which is not accounted for in the court arrears, the remaining uncollected in the forced collection system:

in the accounts of higher courts -	123,912,458.00 RSD,
in the accounts of basic courts -	77,646,493.00 RSD,
in the accounts of commercial courts -	430,942,443.00 RSD,
in the accounts of misdemeanor courts -	466,529,266.00 RSD.

I.6.4. PAYMENT OF DAMAGES PURSUANT TO JUDGEMENTS OF THE EUROPEAN COURT OF HUMAN RIGHTS AND DOMESTIC COURTS IN 2024

Compensation of intangible damage based on the judgements of the European Court of Human Rights in Strasbourg was RSD **58,309,182.00**.

Compensation of damages based on the violation of the right to a trial within reasonable time based on the judgements of domestic courts, paid voluntarily by courts was RSD **124,971,205.51**.

Compensation of damages based on the violation of the right to a trial within reasonable time based on the judgements of domestic courts, paid through forced collection by courts was RSD **4,305,732,093.42**.

Compensation of damages based on the violation of the right to a trial within reasonable time based on the judgements of domestic courts, paid voluntarily based on an agreement with the State Attorney's Office was RSD **19,997,134.00**.

Total court expenditures for damages amounted to RSD **4,509,009,614.93**.

II. INCOMING, DISPOSED AND PENDING CASES

II.1. DISPOSED CASES IN 2024

During **2024**, all courts in the Republic of Serbia disposed **1,754,383** cases, that is **1,699,831** cases without enforcement, while **2,415** judges effectively worked.

Although the courts in 2024 had positive clearance rate, compared to 2023, a total of **89,954 fewer** cases were disposed, and without enforcement cases, **91,694 fewer** cases were disposed.

The lower overall number of disposed cases is the result, *inter alia*, of an enormous number of incoming cases in 2021, that the number of judges effectively working at that time was not able to resolve, as well as a continuous decrease in the number of judges effectively adjudicating in the period 2020-2024.

Additionally, a new set of judicial laws came into force in 2023, which significantly slowed down the entry into office of elected judges.

	2020	2021	2022	2023	2024
TOTAL AT THE LEVEL OF SERBIA – ALL CASES	2,013,829	2,415,672	2,132,305	1,844,337	1,754,383

Table No. 5

Chart No. 2

Chart No. 3

There is a noticeable decrease in the number of disposed cases in all courts in the Republic of Serbia, without enforcement cases, which indicates the need to undertake systemic measures.

Moreover, in **2024**, basic courts also disposed **357,671** cases based on the citizens' requests for verification of signatures, manuscripts and transcripts (that are not under the jurisdiction of public notaries), issuing certificates and the like, while higher courts disposed additional **24,856** cases of this type. There were **929,620** such cases disposed in misdemeanor courts. These cases are resolved by the court administration under the supervision of judges, which creates additional **1,309,147** cases disposed by the courts in 2024, that are not shown in the tables in this report as disposed cases.

II.2. INCOMING CASES IN 2024

In **2024**, all courts in the Republic of Serbia received **1,701,036** cases, i.e. **1,646,363** without enforcement cases, which is the **lowest number of incoming cases since 2020**.

OVERVIEW OF THE NUMBER OF INCOMING CASES IN THE COURTS

Table No. 6

Chart No. 4

Overall, **in the past five years**, there was a total of **9,545,725 incoming** cases in the court system, which continues to significantly burden the court system, especially with the continuous decrease in the overall number of judges.

Chart No. 5

Most cases in 2024 were received by basic and misdemeanor courts.

In the previous period, **basic courts** had the following number of incoming cases: **2020** – 883,416, **2021** – 1,197,831, **2022** – 765,305, **2023** – 750,954, while in **2024** the total number of incoming cases was **745,045** cases, which is **5,909** cases **less** than in the previous year.

In the previous period, **commercial courts** had the following number of incoming cases: **2020** – 100,116, **2021** – 119,112, **2022** – 96,117, **2023** – 80,575, while in **2024** the total number of incoming cases was **74,049**, which is **6,526** cases **less** than in 2023.

In the previous period, **misdemeanor courts** had the following number of incoming cases: **2019** – 632,715, **2020** – 501,547, **2021** – 571,796, **2022** – 528,891 cases, **2023** – 503,866, while in **2024** the total of incoming cases was **532,168**, which is **28,302** cases **more** than in the previous year.

In the previous period, **higher courts** had the following number of incoming cases: **2020** – 246,293, **2021** – 252,164, **2022** – 212,555, **2023** – 210,487, while in **2024** the total of **175,131** incoming cases was received, which is **35,356** cases **less** than in the previous year.

In the previous period, **appellate courts** had the following number of incoming cases: **2020** – 52,244, **2021** – 58,322, **2022** – 57,972, **2023** – 56,395, while in **2024** the total of incoming cases was **54,909**, which is **1,486** cases **less** than in 2023.

In the previous period, the **Commercial Appellate Court** received the following number of cases: **2020** – 13,803, **2021** – 23,314, **2022** – 19,904 cases, **2023** – 12,922, while in **2024**, the total of **8,249** cases were received, which is **4,673** cases **less** than in 2023.

In the previous period, the **Misdemeanor Appellate Court** received the following number of cases: **2020** – 28,478, **2021** – 30,607, **2022** – 30,154, **2023** – 29,263, while in 2024 the court received **32,608** cases, which is **3,345** cases **more** than in 2023.

A special category of cases within the increased inflow are the cases of the **Administrative Court**, due to the continuous expansion of the jurisdiction through new laws in recent years. In the previous period, the following number of cases was received: **2020** – 32,968, **2021** – 38,927, **2022** – 63,534, **2023** – 78,017, while in **2024**, **42,741** cases were received, which is **35,276** cases **less** than in 2023.

The Supreme Court received the following number of cases in the previous period: **2020** – 14,048, **2021** – 19,292 (110,413 with delegated cases), **2022** – 34,381, **2023** – 43,000, while in **2024** the court received **36,136** cases, which is **6,864** cases **less** than in 2023, and from these data it can be concluded that in the last three years, the influx of cases in the Supreme Court has increased by more than 100% compared to previous years, while the number of judges who act effectively has remained more or less the same.

II.3. CLEARANCE RATE

The chart below shows that the clearance rate (ratio of the number of disposed and the number of incoming cases) in the courts in the Republic of Serbia in 2024, in all matters and in matters without enforcement was positive, with **103.14%**.

Chart No. 6

Chart No. 7

Regardless of the continuous positive clearance rate in the last three years, the capacity of judges and court staff is still insufficient for more efficient work of the courts, which indicates the need to fill vacant judicial positions more promptly and to hire a large number of judicial assistants.

II.4. PENDING CASES AT THE END OF 2024

At the end of 2024, there was a total of **1,042,252 pending cases of all types**, i.e. **1,031,582 cases without enforcement cases**.

OVERVIEW OF THE NUMBER OF PENDING CASES IN THE COURTS IN THE REPUBLIC OF SERBIA

Chart No. 9

Courts with fewer pending cases at the end of 2024 compared to 2023:

At the end of 2024, there were 267,075 pending cases, without enforcement in basic courts, which is **42,722** cases **less** than in 2023, when there were 309,797 of those cases.

At the end of 2024, there were 156,930 pending cases, without enforcement in higher courts, which is **8,927** cases **less** than in 2023, when there were 165,857 of those cases.

At the end of 2024, there were 372,128 pending cases without enforcement in misdemeanor courts, which is **9,605** cases **less** than in 2023, when there were 381,733 of those cases.

At the end of 2024, there were 11,940 pending cases without enforcement in commercial courts, which is **589** cases **less** than in 2023, when there were 12,529 of those cases.

At the end of 2024, there were 3,984 pending cases in the Commercial Appellate Court, which is **1,320** cases **less** than in 2023, when there were 5,304 of those cases.

At the end of 2024, there were **36,493** pending cases in the Supreme Court, which is **4,039** cases **less** than in 2023, when there were 40,532 of those cases.

Courts with more pending cases at the end of 2024 compared to 2023:

At the end of 2024, there were 13,840 pending cases in appellate courts, which is **1,883** cases **more** than in 2023, when there were 11,957 of those cases.

At the end of 2024, there were 163,236 pending cases in the Administrative Court, which is **9,699** cases **more** than in 2023, when there were 153,537 of those cases.

At the end of 2024, there were 5,956 pending cases in the Misdemeanor Appellate Court, which is **2,272** cases **more** than in 2023, when there were 3,684 of those cases.

II.5. THE RATIO OF INCOMING, DISPOSED AND PENDING CASES

The ratio of incoming, disposed and pending cases at the end of 2024 compared to the previous year and the previously observed period from 2020 to 2024, indicates further decrease in the number of pending cases (1,042,252), as well as the lower number of disposed cases (1,754,383) and incoming cases (1,701,036).

The ratio of incoming, disposed and pending cases in the observed period in the courts indicates the following: continuous decrease in the number of pending cases, as a consequence of additional engagement of judges and court staff, as well as a slight decrease in the number of disposed cases, except in 2021, when there was the largest recorded number of disposed and incoming cases.

Chart No. 12

The presented data indicate that in 2024, in the observed categories, the courts in the Republic of Serbia saw a decrease in the number of incoming, disposed and pending cases, but that the courts are still burdened with an enormously large number of cases, since in 2024 there was a workload of the total of **2,796,515** cases (number of pending cases transferred from the previous period, increased by the number of incoming cases).

II.5.1. RATIO OF INCOMING, DISPOSED AND PENDING CASES BY TYPES OF COURTS IN 2024

Chart No.13

The data presented indicate the problem of the workload of the Supreme Court, the Administrative Court, the Misdemeanor Appellate Court and appellate courts, since due to the high inflow of cases, those judges acting in those courts cannot solve the inflow, while the basic, commercial, misdemeanor, appellate, higher courts and the Commercial Appellate Court managed to achieve positive clearance rates.

III. BACKLOG CASES

Based on the analysis of the disposition of backlog cases according to the Amended Single Backlog Reduction Program for the period 2016-2020, and the statement that the defined targets were not achieved, based on Measures 5 and 6 of the Judicial Development Strategy for the 2020-2025 period and Activities 1.3.6.3. and 1.6.3.4. of the Revised Action Plan for Chapter 23 “Judiciary and Fundamental Rights” within the accession negotiations of the Republic of Serbia with the European Union, the Supreme Court of Cassation adopted the Single Backlog Reduction Program in the Republic of Serbia for the period 2021-2025 (measures, recommendations, implementation and monitoring).

The aforementioned document sets the goal that the total number of pending cases in the courts of the Republic of Serbia at the end of 2020 should be reduced from 1,510,472 (around 570 pending cases per judge) to 1,000,000 (around 330 cases per judge), which would decrease the share of backlog cases in the total number of pending cases, according to the current trend, to 2.61%.

In order to achieve that goal, the following is planned: systemic measures, special measures for pending enforcement cases, measures to be implemented by the Supreme Court, measures to be implemented by the Ministry of Justice, measures to be implemented by the courts, measures to be implemented by the courts in the territory of the City of Belgrade, general and procedural measures.

Implementing measures from strategic documents – the Supreme Court presented in this report the number of pending backlog cases from 2019, bearing in mind the amended Rules of Procedure of courts regarding the determination of backlog cases (cases in which the procedure lasts longer than three years, counting from the date of submission of the initial act) and separated indicators that include all pending backlog cases and indicators on the number of backlog cases, without enforcement.

III.1. DISPOSED BACKLOG CASES

In 2024, the **total number of disposed backlog cases was 148,531**, which is by **148,105** cases less compared to 2020, **while in matter without enforcement cases** the number of disposed cases was **204,179**, i.e. **112,260 more backlog cases** were disposed compared to 2020.

Chart No. 15

Compared to 2023, an increase in the number of pending backlog cases in all matters and an increase in the number of pending backlog cases, without enforcement cases, was observed, which, despite the objective circumstances (a large inflow of cases and insufficiently filled vacant judge positions), indicates the need to assess the fulfillment of goals set by the Single Backlog Reduction Program in the courts in the Republic of Serbia for the period 2021-2025, as well as the need to review the goals for the coming period.

III.3. PENDING BACKLOG CASES BY COURT TYPE AND BY TRIAL MATTERS

The Court Rules of Procedure regulate the monitoring of backlog cases based on the length of the proceedings according to the date of the initial act (three-five, five-ten and over 10 years), of which the courts keep special records, which represent the starting point for the development of individual backlog reduction program, but also for the assessment of the backlog reduction in courts.

Of the courts of general jurisdiction, at the end of 2024, the higher courts had the largest number of pending backlog cases, namely in the second instance in civil GŽ matter (**106,105**), while in the second instance the largest number of pending backlog cases was in criminal matter KŽ1 (**7,790**).

In the higher courts in the first instance, the largest number of pending backlog cases was in the civil P matter (**2,806**), and in criminal K matter (**4,095**).

COMPARATIVE OVERVIEW FOR 2020-2024

Chart No. 17

In the observed period 2020-2024, the higher courts in first instance criminal matters (K) continuously reduced the number of pending backlog cases till 2023 (553), while in 2024 this number slightly increased (**582**).

The number of pending backlog cases in the observed period indicates the need to implement individual measures in order to reduce the number of these backlog cases before the higher courts.

COMPARATIVE OVERVIEW FOR 2020-2024

Chart No. 18

In the same period, in the first-instance civil matters (P, P1, P2) compared to 2020, when there were 2,949 pending backlog cases, the number of pending backlog cases increased at the end of 2024 to **2,975**, which is at the same time **the highest number of pending backlog cases** at the end of a year in the observed reporting period.

This number highlights the need to conduct a detailed analysis of workload in higher courts and the cause of why these cases are not disposed, with the aim of implementing systemic measures regarding the work of the busiest higher courts.

Chart No. 19

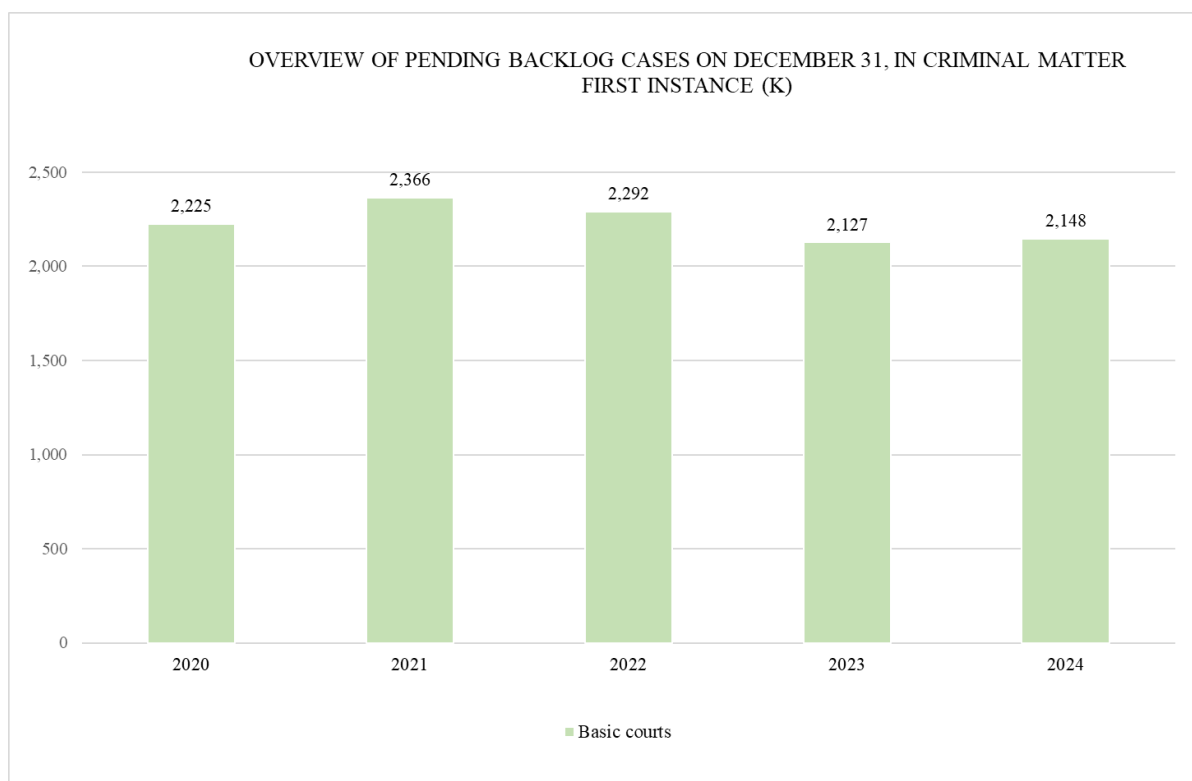

Chart No. 20

In the observed period 2020-2024, civil matters (P, P1, P2) in basic courts continuously showed increase in the number of pending backlog cases until 2023, while at the end of **2024**, the number of pending backlog cases slightly decreased by **2,813** cases, to **42,3678**.

In the same period, basic courts in criminal matter (K) had the highest number of pending backlog cases in 2021, while after that the number of those cases continuously decreased until 2023, and at the end of 2024, the number of pending backlog cases in that matter was by **21** cases **more**, and increased to **2,148** cases.

The number of pending backlog cases in civil and criminal matter indicates the need to prepare an analysis of the workload of basic courts and the reasons behind why they are not disposing backlog case, with the aim of implementing measures in certain courts, to speed up their disposition.

On 31. 12. 2024, there were **1,879** pending backlog cases in commercial courts, of which the largest number was bankruptcy cases (**886**).

Chart No. 23

In the observed period, a continuous decrease in the number of pending backlog cases was also observed in the commercial courts, At the end of **2024**, there were **1,879** pending backlog cases, which is **1,354** cases less than in 2020.

Nevertheless, the commercial courts had the largest number of cases older than 10 years among the courts of special jurisdiction, and the numbers show an increasing trend from 2020 to 2021: **2020** - 445; **2021** - 583, while at the end of 2022 and 2023 the number of those cases would be **reduced: 2022** - 556, **2023** – **504**, and in **2024** – **405**.

Among pending cases older than 10 years, the most numerous were bankruptcy cases: **2020** - 342, **2021** - 470, while starting from the end of 2022 that number **decreased: 2022** - 453, **2023** – 394, and in **2024-405**.

Table No. 18

The number of pending backlog cases in misdemeanor courts at the end of **2024** was **4,100**, of which the most numerous were the cases related to finance and customs: **3,132** of those cases.

COMPARATIVE OVERVIEW FOR 2020-2024

Chart No. 25

While analyzing the chart for the observed period, it was noticed that compared to 2020, the number of pending backlog cases has significantly decreased: **2020 – 7,062, 2021 – 6,852, 2022 – 4,867, 2023 – 4,973**, while at the end of **2024** the number of those cases fell to **4,100** of such cases, which is slightly **less**, by **873** of those cases.

Among the pending backlog cases, the most numerous are finance and customs cases: **2020 – 5,868, 2021 – 5,838, 2022 – 4,145, 2023 – 4,050**, while at the end of **2024** the number of these cases **decreased to 3,132**, which is by **918 less** of those cases.

III.4. STATUTE OF LIMITATIONS **(criminal, misdemeanor, commercial matter)**

Compared to 2023, the number of cases disposed by suspension of proceedings due to statute of limitations in criminal proceedings, misdemeanor proceedings and proceedings on commercial offenses indicates that the number of such cases before higher, commercial and misdemeanor courts significantly decreased at the end of **2024**, except before the Misdemeanor Appellate Court, where the number of such cases increased.

In misdemeanor courts at the end of 2024, the number of cases disposed by suspension of proceedings due to statute of limitations was **82,297**, which is **28,523 cases less** compared to 2023, **which has stopped the trend of growing number of backlog cases** since 2020.

Annual Report on the Work of the Courts in the Republic of Serbia for 2024

In the procedure for commercial offenses **before commercial courts** at the end of **2024**, the number of cases disposed by suspension of the proceedings due to the statute of limitations was **1,042**, which is **590** cases **less** than in 2023.

Table No. 19

Although the number of cases disposed due to the statute of limitations has decreased compared to previous years, it is necessary to analyze the causes that led to the disposition of a still large number of cases by suspension due to the statute of limitations in the commercial and misdemeanor courts, because this way of disposing cases cannot be considered as efficient court action, as well as an analysis of the excessive length of proceedings before courts.

III.5. APPLICATION OF THE LAW ON ENFORCEMENT AND SECURITY FROM 2016 AND THE LAW ON AMENDMENTS AND SUPPLEMENTS TO THE LAW ON ENFORCEMENT AND SECURITY FROM 2019

Adoption and implementation of the Law on Enforcement and Security (“Official Gazette of the Republic of Serbia”, No. 106/2015) and Amendments and Supplements to the Law on Enforcement and Security (“Official Gazette of the Republic of Serbia”, No. 54/2019), that came into force on January 1st, 2020 and the adoption of the Instructions for the implementation of the new Law on Enforcement and Security (2019), prepared through cooperation of the Supreme Court of Cassation, the High Court Council and the Ministry of Justice, **helped the courts to solve the multi-decade problem of a huge number of enforcement cases.**

III.5.1. PENDING BACKLOG ENFORCEMENT CASES

The Supreme Court paid special attention to the problem of pending backlog enforcement cases, since in the previous period they affected the efficiency of the courts.

Exceptional results were achieved through the cooperation of the Supreme Court of Cassation, the High Court Council and the Ministry of Justice, with the additional help of the IPA 2012 Projects “Improving Judicial Efficiency in the Republic of Serbia”, “EU for Serbia – Support to the Supreme Court of Cassation” and “EU for Serbia – Support to the High Court Council”, **in the period from 2016 to the end of 2022 in the reduction of pending backlog court cases, and especially pending backlog Iv cases in basic courts.**

The table shows the number and structure of pending backlog enforcement cases in basic and commercial courts (I and Iv) at the end of 2024:

Table No. 26

Based on the decisions of the court presidents who accepted objections for speeding up the proceedings and found a violation of the right to a trial within reasonable time before the basic and higher courts in the Republic of Serbia, out of the total number of cases received (**3,261**), the number of filed lawsuits for material harm was: Prr1-**728**, and for non-material harm: Prr-**2.533**.

The largest number of these cases refer to the enforcement of legally binding court decisions, in which the enforcement of forced collection of claims from the employment relations was interrupted by the imperative norms of the Law on Privatization, which were not affected by the legal decision of the courts, and in which due to the insolvency of the debtor in the restructuring for the sake of privatization, the obligation falls on the state (*Kačapor v. Serbia, Vlahović v. Serbia...*). Amounts paid to parties instead of these insolvent debtors, that are socially or state owned and whose privatization is controlled by the state, significantly burden the budget.

Chart No. 27

Chart No. 28

The largest **number of incoming cases for claims** for compensation of material and non-material harm was in **2020** – 29,341. The trend of such a high number of claims has been stopped, since in 2021 there were 20,930 of these cases, **2022** – 13,060, 2023 – 8,196, while in **2024** the number of these cases was **3,261**.

The number of pending cases of this type on **December 31, 2024** was **1,900** cases, which is **more** than in **2023**, by **481** cases.

IV.1. PAYMENT OF DAMAGES PURSUANT TO DOMESTIC COURT DECISIONS IN 2024

1. Compensation for damages based on the violation of the right to a trial within reasonable time according to the decisions of domestic courts, voluntarily paid by the courts, was in the amount of RSD 124,971,205.51, which is 2.81% of the total damages paid.

2. Compensation for damages based on the violation of the right to a trial within a reasonable time according to the decisions of the domestic courts, collected through forced collection at the expense of the courts, was about RSD **4,305,732,093.42**, which is **96.74%** of the total damages paid.

3. Compensation for damages based on the violation of the right to a trial within reasonable time according to the decisions of domestic courts, paid voluntarily based on an agreement with the State Attorney's Office amounted to RSD **19,997,134.00**, or **0.45%** of the total damages paid.

The upcoming analysis of statistical data includes reports on which the Supreme Court periodically reports to the competent institutions.

V.1. CORRUPTION

The Amendments and Supplements to the Criminal Code (“Official Gazette of the Republic of Serbia”, No. 94/2016) revised the section on criminal offenses against the economy and the section on criminal offenses against official duty. Also, the Law on the Organization and Competence of State Authorities in Suppression of Organized Crime, Terrorism and Corruption (“Official Gazette of the Republic of Serbia”, No. 94/16, 87/18 and 10/23) was adopted, which establishes four special departments for actions related to criminal acts of this type of crime before the higher courts in Belgrade, Kraljevo, Niš and Novi Sad, which act in the first instance. In previously initiated cases, the proceedings are completed by the courts before which the proceedings were initiated.

Although these cases are not numerous, their importance is significant, given the fact that the protection of whistleblowing right, as a human right for protection of freedom of speech, is important for the rule of law and the development of any democratic society.

V.3. CRIMINAL ACT OF HUMAN TRAFFICKING (Article 388 of the CC)

Article 388 of the Criminal Code stipulates the criminal act of human trafficking. In order to combat human trafficking as efficiently as possible, the provisions of Article 388 of the Criminal Code were amended in accordance with the Council of Europe Convention, and criminal sanctions were tightened as of 2013.

Annual Report on the Work of the Courts in the Republic of Serbia for 2024

In 2024, the total number of incoming cases with elements of domestic violence (P2, K and NP) in basic courts was 24,949 cases, 24,993 cases were disposed, with 2,800 pending cases at the end of the reporting period.

In 2024, the total number of incoming cases with elements of domestic violence (P2, K) in higher courts in the first instance was 11, with the total of 15 disposed cases and 7 pending cases until the end of the reporting period.

Ruling on appeals, in higher courts, a total of (Kž1, Kž2, NPž, Gž2) 4,398 cases were received, a total of 4,316 cases were disposed, with 221 pending cases at the end of the reporting period.

Ruling on appeals, a total of 833 incoming cases were received in appellate courts (Kž1, Kž2, Gž2), 830 cases were disposed, and 49 cases were pending at the end of the reporting period.

In the Supreme Court, based on the extraordinary legal remedies, 187 cases were received, a total of 181 cases were disposed, and 50 of those cases remained pending at the end of the reporting period.

In the courts of special jurisdiction, in the first instance, in the misdemeanor courts, 2,067 cases were received, a total of 2,062 were disposed, and 234 cases remained pending at the end of the reporting period.

Ruling on appeals against the decisions of misdemeanor courts, the Misdemeanor Appellate Court received 291 of these cases, and disposed 281 cases, with 15 pending cases at the end of the reporting period.

VI. QUALITY

The ratio between the total number of disposed cases, the number of appealed cases in relation to the number of revoked decisions, expressed in total and through the decisions in the merits indicates the number of cases that were, based on the legal remedy, returned to a lower instance court for retrial.

The overall quality of the work of courts, according to the Court Rules of Procedure, is a total number of disposed cases reduced by the sum of revoked and reversed decisions, divided with the total number of disposed cases and multiplied by 100 (the result is expressed in percentages).

Table No. 36

Analyzing the percentage of revoked decisions in the observed period 2020-2024, it is obviously necessary to monitor trends in the number of revoked decisions, since they burden the work of courts. Professional training and consideration of disputed issues should influence the reduction of the number of revoked decisions in cases, so that cases would not be decided again. Reducing the number of revoked decisions will allow judges to devote more time to newly received cases. In addition, the reduction in the number of revoked decisions affects the increase in legal certainty and citizens' confidence in the judiciary.

VII. PERFORMANCE INDICATORS ACCORDING TO THE CEPEJ

According to the methodology of statistical reporting to the European Commission for the Efficiency of Justice – CEPEJ (*Commission Européen pour l'Efficacité de la Justice*), which is unique for all member states and all parts of the justice system (courts, prosecution, prisons), a set of indicators was defined in order to evaluate the performance of the system, i.e. parts of the system. Main performance indicators of this methodology have been accepted in the domestic regulatory framework and practice, and they were previously presented in this report: number of pending cases at the beginning of the reporting period, number of incoming

Annual Report on the Work of the Courts in the Republic of Serbia for 2024

cases during the reporting period, number of disposed cases during the reporting period and number of pending cases at the end of the reporting period.

In addition to these, important performance indicators based on which judicial systems of the member states of the Council of Europe are compared every two years are the time to disposition (in days) and clearance rate. The following reporting to the CEPEJ for 2023 and 2024 will be submitted in 2025.

The average length of proceedings is calculated on the **annual basis**, and it is determined based on the following formula:

$$\text{Average duration} = \frac{\text{number of pending cases at the end}}{\text{number of disposed cases during the year}} \times 365$$

Another important performance indicator, clearance rate, is also calculated on the **annual basis**, according to the following formula:

$$\text{Clearance rate} = \frac{\text{number of disposed cases in a year}}{\text{number of incoming cases in a year}} \times 100$$

This indicator is an integral part of the statistical reports of courts in the Republic of Serbia.

The average duration of court proceedings in the Republic of Serbia for the period 2020-2024 is shown in the following table.

TIME TO DISPOSITION IN DAYS					
	2020	2021	2022	2023	2024

VIII. REPORT ON THE WORK OF THE SUPREME COURT

VIII.1. GENERAL INFORMATION

As of May 11, 2023, the Supreme Court of Cassation, pursuant to Article 53 para. 1 – 3 in relation with Articles 15 and 32 of the Law on the Organization of Courts, changed its name to the Supreme Court.

All general and individual acts passed by the Supreme Court of Cassation that were in force on May 10, 2023, remained in force and will be applied until the adoption of new acts.

The competence of the Supreme Court, prescribed by the new Law on the Organization of Courts, has not been changed in relation to the competence of the Supreme Court of Cassation.

The Supreme Court consists of judges and court staff. Judges are assigned to court departments and court chambers on an annual schedule, and court staff are assigned to court departments, the Office of the President, the Secretariat and the Court Registry Office.

On December 31, 2024, **45** judges held office of judge in the Supreme Court. **32** judges acted effectively during the reporting period. The number of court staff on the same day was **233**, of which **59** were judicial assistants.

According to the Law on Budget of the Republic of Serbia for 2024 (“Official Gazette of the Republic of Serbia”, No. 92/23), financial resources allocated from the budget of the Republic of Serbia for the Supreme Court of Cassation, were RSD **904,752,000.00**, and with the amendment to the Law – supplementary budget, the allocated financial resources for the Supreme Court were in the total amount of RSD **922,356,000.00** (“Official Gazette of the Republic of Serbia”, No. 79/24).

VIII.2. JURISDICTION OF THE SUPREME COURT

The Supreme Court is the highest court in the Republic of Serbia.

The Law on the Organization of Courts, in its Article 32 prescribes the jurisdiction of the Supreme Court:

- The Supreme Court shall decide on extraordinary legal remedies filed against decisions of courts in the Republic of Serbia and in other matters set forth by law;
- The Supreme Court shall decide on conflicts of jurisdiction between courts, if this doesn't fall under the jurisdiction of any other court, as well as on the transfer of jurisdiction of courts to facilitate proceedings or for other important reasons;
- The Supreme Court ensures unique judicial application of the law, and the equality of parties in court proceedings; reviews the application of laws and other regulations and the work of courts; appoints judges to the Constitutional Court; provides opinions about the candidate for the president and judge of the Supreme Court in cases prescribed by law; adopts

the Rules of Procedure of the Supreme Court, and performs other jurisdictions and activities prescribed by law.

The Supreme Court received the total of **36,136** cases in 2024, **6,864** cases less than in 2023, and the caseload of the court was **76,668** cases. **40,175** cases were disposed, which is **13,307** cases more than in the previous year, and the clearance rate was positive.

Despite the reduced caseload at the end of 2024, due to the enormous caseload in previous years, judges are still burdened with an extremely high number of cases in their work. The almost twofold increase in the inflow of cases compared to 2021, or approximately threefold increase in the inflow of cases compared to 2020, indicates that an increase in the number of judges in the Supreme Court is necessary.

VIII.3. WORK OF COURT DEPARTMENTS

According to the Rules of Procedure on the organization and operation of the Supreme Court (of Cassation), the following departments were established in the Supreme Court: Civil Department with a specialized panel for administrative matters, Criminal Department, Department for the Protection of the Right to a Trial within Reasonable Time and the Case Law Department.

The work of the **Civil Department** of the Supreme Court in 2024 is characterized by the great engagement of judges of this Department in overcoming the enormous inflow of cases. A total of **32,068** cases were received, which is **8,216** cases **less** than in the previous year. Judges disposed an average of **132,15** cases per month. The clearance rate was positive **113,32%**. The increase in the number of cases in civil matters to **72,059** cases and the number of disposed cases in this matter to **36,340** cases, which is **12,204** disposed cases more than at the end of 2023, required the investment of additional effort not only by judges, but also by judicial assistants on the drafting of court decisions, judicial assistants working in the Preparatory Department and the Case Law Department, as well as the staff working in the Registry Office, typewriters and proofreading office.

The largest number of cases in the work of the Civil Department relate to the collection of loan processing costs, reimbursement of food costs during work, annual leave allowance and travel expenses, prohibition and limitation of employment at the beneficiaries of public funds, expropriation, limitation of rights to property through planning acts, and in commercial disputes cases were disposed slowly when it comes to insurance, banking disputes, disputes related to trademark infringement and bankruptcy.

In 2024, **five sessions of the Civil Department** were held, where reports of judges in proceedings to resolve a disputed legal issue were discussed, reports by judges in proceedings for resolving disputed legal issues, reports by judges for the Annual Conference of Judges, issues related to the functioning of the department, work reports and conclusions from joint meetings of the appellate courts.

At the sessions of Civil Department, **16 decision wordings** from the decisions of the Supreme Court in general civil, labor, economic and administrative matters were determined and the legal position “Absence of infringement of personal rights in a situation where the natural person to whom the personal data relates has been informed of the transfer of data for the purpose for which they were collected” was adopted.

The inflow of cases in administrative matters in the Specialized Chamber for Administrative Matter was increased to **546** compared to 365 in 2023, so the clearance rate was not positive. In 2024, **501** requests for revision of court decisions were submitted to the Specialized Chamber for Administrative Matters, which means that only **4,27%** of the decisions of the Administrative Court issued in that year were challenged before the Supreme Court using this extraordinary legal remedy. Although there has been an increase in the number of extraordinary legal remedies filed, this data still indicates that the restrictive conditions for filing a request for revision of a court decision prescribed by the Law on Administrative Disputes (“Official Gazette of the Republic of Serbia”, No. 111/09) prevent the Supreme

Court from ensuring uniform judicial application of law in administrative matters, as one of its main competencies.

The largest number of disposed cases in administrative matters in the reporting period refers to the restoration of property – restitution, protection of competition, public procurement, labor and legal status of civil servants, inspection measures, tax cases, cadastral cases, conflict of jurisdiction, misdemeanors, information of public importance, public debt - unpaid foreign currency savings deposits.

In the **Criminal Department** of the Supreme Court, compared to previous years, the inflow of cases has been uniform, and the structure of the cases has not changed. In 2024, **2,400** cases were received in this Department, which is **440** cases more compared to 2023 and **2,218** cases were disposed, meaning that the clearance rate was **92.42%**.

The subject of discussion and decision on requests for the protection of legality in criminal matters mainly related to illegally obtained evidence in criminal proceedings, violation of criminal code and the costs of criminal proceedings.

During 2024, **eight sessions of the Criminal Department** were held, where disputed legal issues observed during the resolution of cases based on requests for the protection of legality were considered. At the session of the Criminal Department, conclusions were reached, and the judges of the Criminal Department expressed their views on the following issues: interpretation and application of Tarrif No. 1, paragraph 2, item 2, and Article 9, paragraph 2 of the Tariff on Fees and Compensation for Lawyers' Work ("Official Gazette of the Republic of Serbia", No. 43/23 of May 26th, 2023), which entered into force on June 3rd, 2023; payment of costs when representing multiple defendants by one defense attorney and a significant violation of the provisions of criminal procedure under Article 438, paragraph 1, item 4) of the CPC and the exclusion of judges. The Criminal Department determined the legal position on the disputed issues from the joint sessions of representatives of the criminal departments of the courts of appeal and the Supreme Court, held on January 31st, 2024 and April 26th, 2024. At the sessions of the Criminal Department, drafts of the Law on Amendments and Supplements to the Criminal Procedure Code and the Criminal Code were also considered, and proposals for amending the aforementioned laws were established.

At the sessions of the Criminal Department, **6 decision wordings** from the decisions of the Supreme Court were established.

During 2024, **3 meetings** of representatives of the criminal departments of the appellate courts and the Supreme Court were held to harmonize case law – on January 31st, 2024, April 26th, 2024 and November 19th, 2024.

A total of **1,122** cases were received in the **Department for the Protection of the Right to a Trial within Reasonable Time** in the reporting period, and **1,081** cases were disposed. The inflow was not completely resolved due to the fact that the largest number of cases were received in the months of November and December. Compared to 2023, there was a noticeable decrease in the number of cases on objections to speed up the procedure and appeals against decisions on objections in civil proceedings, but the number of appeals against decisions of the Administrative Court increased from 286 to 993 cases. These data indicate the obvious shortening of the duration of civil proceedings before the appellate

courts and the extension of the duration of the proceedings before the Administrative Court due to the long-term continuous increase in the number of cases before that court.

Judges in the Department for the Protection of the Right to a Trial within Reasonable Time make decisions on legal remedies within the deadlines prescribed by law, so there was no need to hold department meetings in order to implement measures to improve the organization of work in the department. Apart from that, there were no disputed legal issues, because there is uniform judicial practice in the matter of protecting the right to a trial within reasonable time.

Disputed legal issues related to compensation for damages due to the violation of the right to a trial within reasonable time were considered at the sessions of the Civil Department of the Supreme Court.

Chart No. 37

The Court Practice Department monitors and studies judicial practice, initiates a review of the adopted legal understanding, informs judges and court advisors about the legal understanding of judicial departments and determines which data and documentation needs to be monitored in order to improve judicial practice, as well as the way of recording, processing and entering them in publications, in order to ensure uniform judicial application of the law.

In 2024, **two** meetings of the Court Practice Department were held.

VIII.4. WORK OF THE GENERAL SESSION

In addition to judicial panels and judicial departments, judges perform their judicial function in the General Session.

In 2024, **five General Sessions** were held (9.02.2024, 20.05.2024, 18.07.2024, 9.09.2024 and 8.11.2024.), where numerous issues were discussed and decisions were made from the jurisdiction of the General Session, including the following:

- consideration and adoption of the Annual Report on the work of courts in Serbia for 2023;
- entry into office of six judges in the Supreme Court, and regarding that, determination of changes and additions to the Annual work schedule of judges in 2024;
- determining the Annual work schedule of judicial assistants in the Supreme Court for 2024;
- providing opinion on candidates, judges, in the election process for judges in the Supreme Court, and providing opinions on candidates, judicial assistants of the Supreme Court, in the process of election for a judge of a court of general or special jurisdiction; and
- decision of the General Session on requests for the exemption of the president of the court in 2 requests.

VIII.5. WORK OF THE COURT ADMINISTRATION

VIII.5.2. ACTING UPON REQUESTS FOR FREE ACCESS TO INFORMATION OF PUBLIC IMPORTANCE

By the decision of the president of the court, the secretaries of the Criminal and Civil Departments are authorized to act upon requests for free access to information of public importance.

In 2024, the Supreme Court received **66** requests for free access to information of public importance, **44** requests were submitted by citizens, **1** request was submitted by the media, **2** requests were submitted by non-governmental organizations and other citizen associations, and others (lawyers, institutions) submitted **19** requests.

The response to **61** requests was provided by December 31, 2024. The requests of all information seekers were responded to within the legal deadline.

61 requests were granted, and in **three** cases the request was not granted.

VIII.5.3. ACTIONS BASED UPON APPLICATIONS AND COMPLAINTS

In 2024, the Court received **247** complaints, of which **33** were related to the work of the Supreme Court. **5** complaints were transferred from 2023. **243** complaints were acted upon, **9** complaints remained pending, and a total of **96.43%** of these cases were resolved.

Out of the total number of reviewed complaints about the work of the Supreme Court, **5** complaints were well-founded, and **28** were assessed as unfounded, of which the well-founded ones refer to the duration of the proceedings.

VIII.5.4. SUBMITTING RESPONSES TO THE DEFENDANT BEFORE THE EUROPEAN COURT OF HUMAN RIGHTS

During 2024, the Supreme Court submitted response to the State Attorney's Office – the representative of the Republic of Serbia before the European Court of Human Rights, in **7** cases, including relevant examples from the practice of the Supreme Court relevant for current cases before the ECtHR or for the enforcement of already reached decisions of the ECtHR against the Republic of Serbia.

VIII.6. HARMONIZATION OF CASE LAW

As the highest court in the system of judicial power, **the Supreme Court ensures the uniform judicial application of rights and equality of parties in court proceedings**, considers the application of laws and other regulations, as well as the work of the courts, thus exercising its jurisdiction determined by law.

The agreement between the presidents of the appellate courts on the organization, place and time of joint sessions of the appellate courts in the period from 2021 to 2025 was signed between the Supreme Court of Cassation and the appellate courts on February 24, 2021.

In 2024, three meetings of judges acting in civil matter and one in criminal matters were held.

Adopted legal opinions and conclusions of the Supreme Court are published on the court's website.

During 2024, the case law of the European Court of Human Rights (ECtHR) was regularly monitored and reviews of decisions made in relation to the Republic of Serbia, as well as cases that may be relevant for deciding cases before the Supreme Court, were prepared.

Reports on cases of the European Court of Human Rights in relation to the Republic of Serbia were published in the Bulletin of the Supreme Court, No. 3/24.

VIII.6.1. CASE LAW DATABASE

During 2024, progress was made in connection with the entry of the decisions of the Supreme Court, the Commercial Appellate Court, the Misdemeanor Appellate Court, the Administrative Court and appellate courts into the unified Case Law Database (<https://sudskapraksa.sud.rs>).

In total, by the end of 2024, **integral versions of 491,470** decisions were entered (416,387 integral decisions were entered by December 31, 2023), **66,197 anonymized decisions** (54,183 were entered by December 31, 2023), as well as 193 legal opinions, 80 judicial practice bulletins and 58 decision wordings.

18,995 anonymized court decisions, from criminal, civil matter, administrative matter and protection of right to a trial within reasonable time, were published in the Single Case Law Database (<https://sudskapraksa.sud.rs>).

The Supreme court published three issues of the Case Law Bulletin, in which, in addition to the reports presented at the Annual Conference of Judges in Vrnjačka Banja in May 2024, the reports of the judges of the appellate and higher courts were also published, which the Editorial Board assessed as significant for the development of judicial practice in criminal and civil matters. In addition to the reports, legal positions, decision wordings and conclusions of the Criminal and Civil Departments of the Supreme Court were also published.

VIII.7. ACTIVITIES OF THE SUPREME COURT IN THE PROCESS OF ACCESSION OF THE REPUBLIC OF SERBIA TO THE EUROPEAN UNION

During 2023, the Supreme Court participated in activities related to the process of the European Union accession in cooperation with the Ministry of Justice, the Ministry of European Integration and other authorities.

In this regard, quarterly reports were prepared regarding the implementation of activities from the Action Plan for Chapter 23 (Judiciary and Fundamental Rights)² – gathering of all relevant information under the jurisdiction of the Supreme Court and the courts.

Contributions were made for the preparation of the Annual Report on Serbia's progress in the accession process in accordance with the issues identified by the European Commission (attachments Fundamental Rights, Freedom of Expression, Fight against Corruption, Judicial Reform) within Chapter 23, as well as Chapter 24 (Fight against organized crime and other serious forms of crime), Chapter 7 (Protection of Intellectual Property) and Chapter 19 (Protection of Social Rights). The group also prepared contributions for the Subcommittee on Justice, Freedom and Security (Chapters 23 and 24), as well as for the Subcommittee on Internal Market and Competition (under the stabilization and accession process). In this regard, various statistical reports from the courts, which are collected by the Supreme Court as an umbrella institution, as well as information on case law on specific issues, were submitted.

Also, when it comes to cases of corruption and organized crime, and other serious criminal offenses, the Supreme Court, in cooperation with the Ministry of European Integration, participated in a project initiated in 2023 – participation in several coordination meetings and filling in the required data in the electronic platform. In accordance with the requirements, the Supreme Court has developed appropriate instructions for submitting statistical data from courts. In addition to the contact person at the Supreme Court, contact persons have also been designated in special departments of higher courts that are working on filling in the part of the e-platform related to the flow of "live cases". This activity marked the second and third quarters of 2024.

In cooperation with the competent courts, the Supreme Court prepared a special statistical report on cases of corruption and organized crime, according to the criteria of the European Commission (track record tables), as well as the rule of law.

VIII.8. INTERNATIONAL COOPERATION

In 2024, the Court continued its cooperation with regional, European and other international organizations and institutions, including the implementation of projects.
