In the past two years, the court system received more than 1,300,000 new cases more than expected, having in mind the inflow of incoming cases compared to the previous years, which burdened the court system and influenced that the number of pending cases in the trial matters is somewhat higher, but the total number of pending cases has been significantly reduced, if we observe the period from 2012 – by 1,247,314 cases
